

**Saskatchewan Federation of Labour –  
Ban Asbestos Saskatchewan**

Chair: Bob Sass

Vice Chair: Larry Hubich, President  
Saskatchewan Federation of Labour

Dear Citizens Concerned about Asbestos:

The Saskatchewan Federation of Labour (SFL), representing 93,500 workers in the prairie province of Saskatchewan wholeheartedly supports the Ban Asbestos protest demonstration at the Canadian Embassy in Washington D.C. on April 28, 2007.

Our provincial Federation of Labour officially organized a Ban Asbestos Committee at our 2006 annual convention. As President of the Saskatchewan Federation of Labour, I am pleased to inform you that our provincial labour leaders and members support the global Ban of this deadly carcinogen and are outraged at our federal government's disgraceful policy of mining Asbestos in Quebec and exporting it to third-world countries.

We fraternally extend a sincere handshake to the New York Committee for Occupational Safety and Health, White Lung Association, International Ban Asbestos Secretariat and the organizers of this historic demonstration.

The following Saskatchewan Trade Union organizations enthusiastically commend your efforts on behalf of all Canadian workers, and wish to be noted regarding their support. They are:

Building and Construction Trades Council  
Grain Services Union  
Retail, Wholesale and Department Store Union  
Canadian Union of Public Employees  
Prince Albert District Labour Council  
Honourable Peter Prebble, NDP Member of the Legislature

As President of our provincial Federation of Labour, I can officially and personally speak on behalf of our organizations' heart-felt support for your worthy efforts on behalf of our workers and workers everywhere. We are in your gratitude.

Sincerely,

Larry Hubich,  
President Saskatchewan Federation of Labour
