

Shame The Government

Chorus:

Hear ye, Hear ye

E-I-O- Enough is enough

Hear ye, Hear ye

E-I-E-I O Enough is Enough, I object

They tax us at the pumps, They tax us at the bars

They tax us at the garbage dumps, They tax us one and all

Repeat chorus

Proverty on the street, They've misplaced our medi-care

Time has come to stand as one, And say it isn't fair

repeat chorus

They think they're closing libraries, Selling our water works

Thieving our natural gas, What a bunch of jerks

repeat chorus

They're limited our right to strike, They're breaking all the rules

They're putting 12 year-olds to work, Instead of going to school

repeat chorus

They try to sell us corporate bull, And justify the banks

And now we have Paul Martin, Sleeping with the Yanks

repeat chorus

Are you ready for some humour now, Do you want to hear a joke

It really isn't funny, Our pension plan is broke

repeat chorus

You want to make a difference, We'll make it easy now

Just raise your voices, Sing our Song, And tell them to go to

Hear ye, Hear ye

E-I-O Enough is enough

Hear ye, Hear ye

Shame on You

If You've Waited Long Enough

If you've waited long enough, Clap Your Hands
If you've waited long enough, Clap Your Hands
If you're waiting for a nurse and your pain is getting worse
If you've waited long enough, Clap Your Hands

If you've waited long enough, stamp your feet (2x)
If you're eating and you choke and your hospital is broke
If you've waited long enough, stamp your feet, clap your hands

If you've waited long enough, pat your head (2x)
If the rich have no fear cause your health care is two-tier
If you've waited long enough, pat your head, stamp your feet, clap your hands

If you've waited long enough, turn around (2x)
If you take a nasty fall and you end up in the hall
If you've waited long enough, turn around, pat your head, stamp your feet, clap your hands
